

Zee Spec sheet

The Zee is manufactured using only Aluminium 6061T6 and 6063T6 grades. Only the seat frame and minor fittings are of stainless and mild steel. There are no unsightly external bracing wires or cables. Designed to work with any hang glider wing that falls within the certified weight carrying frame work of the all-up combination. Unique one wing-nut engine removal, (all Zee's power units are fully interchangeable in one wing-nut manoeuvre). Fast, easy complete tool-less assembly and disassembly, including unique effortless throttle cable removal.

Empty weight.....	23kg
